Mayco SC34 Down To Earth
Duncan CN233 Dark Briarwood

Dark Yellow:

Gare 2315 What A Yolk
Mayco SC24 Dandelion
Duncan CN032 Bright Butternut

SIMPLE STEPS:

1. Use Yellow Goo to screen the acorn onto the plate. We will be covering the entire design with colors, this is simply to see where to paint each color.
2. Paint 3 coats of Green to the cap of the acorn.
3. Starting under the Green we are going to fill in the acorn by blending the colors down. Start with Yellow, then Dark Yellow, then Orange, then finally with Red. Do this 3 times, letting the colors blend and overlap when wet.
3. Paint three coats of Speckled Cream around the acorn.
4. When everything is dry, screen the acorn back on top with Brown to create all the lines!
5. Finally, 3 coats of Green to the back and edges of the plate and we are done!
