### SUPER SIMPLE STEPS:

1. Use a Fan Brush to paint 2 coats of Speckled Cream to the top of the platter.
2. Use Dark Brown Goo to screen on your turkey body first.
3. Then, working one at a time, screen on your feathers to create your tail. The screen is translucent so you'll easily be able to see where to apply your next feather!
4. Paint one generous coat of desired colors to your turkey.
5. Paint the back with 3 coats of Red, then use a sponge to gently dab the rim to create a soft border.
