### PYOP STUDIO STUFF SUPPLIES:

Christmas 7 Ways Silkscreen

1" Studio Spots

### SUPER SIMPLE STEPS:

1. Put 1" spots all over the rim of the platter and press down firmly. Paint 3 coats of Red on the rim, painting right on top of the spots.
2. Starting with Lime goo, use your finger to quickly apply the bottom half of the word "Christmas". Then immediately start at the top of the word with Green goo and blend it down into the Lime by rubbing back and forth. We did a couple layers to help get the blending of green in the middle.
3. Use Red goo to apply the word "Merry".
4. Use a pin to remove the spots, then add highlights to the spots and the inside of the rim with Green.
