### SUPER SIMPLE STEPS:

1. Water down your Pale Green with water until you have 50% paint to 50% water. Then, use a fan brush to brush on 2 coats all over the top of the plate.
2. Leaving space for the heart, use Black goo to screen on the characters and the words "peanut butter + jelly" toward the bottom of the plate. Do not screen on the heart yet.
3. Use Red goo to screen on the heart above your characters. Now that you have that on, you know exactly where to paint in 3 coats of Red to the heart and let dry.
4. To paint in the characters, we used a detail brush to apply one heavy coat to the desired areas. We used Tan for the bread, Brown for the peanut butter, and Purple for the jelly.
5. We can now use the heart screen to add a perfect outline and words to the heart we painted Red by lining up the heart screen again and using Black Goo to apply it.
6. Finally, flip the plate over and paint on 3 coats of Plum. Then, use a sponge to tap on a soft border to the rim of the plate.
