SUPER SIMPLE STEPS: You need Goo in Black

1. Use a squeegee and Black goo to screen the design onto the cover of the book, and the design on the spine.
2. Fill in the designs using "drop and fill" method; load up a liner brush with watered-down color, drop a ball of that color onto the design, and gently push it around to fill in the design. This eliminates the need for three layers and reduces the visibility of brush marks.
3. For the Yellow background sections, mix 60% water and 40% paint. Use a liner brush to paint around the designs/words using the technique in step 2.
4. For the rest of the design, water-down the colors with 50% water and 50% paint. Use a liner brush to fill in the designs using the technique in step 2.
5. Paint around the cover and spine designs with three coats of Aqua to make the book cover.
6. Use a fan brush to paint the inside of the vase with three coats of Teal.
