Mayco SC5 Tiger Tail
Gare 2368 Old Yeller
CMM 25 Safari

Green:

Mayco SC98 Slime Time
Gare 2373 Key Lime Pie
CMM 22 Gecko Green

Dark Brown:

Mayco SC25 Cracker Jack
Gare 2328 Mocha-chino
CMM 13 Cinnamon Stick

SUPER SIMPLE STEPS: You need Goo in Black

1. Use Black goo to screen the words on the rim of the plate and the capybara in the center.
2. Sketch out the name on the bottom of the rim using a water-based marker. Then, use a detail brush and Black paint to paint on the name.
3. Use the Black goo again to add confetti and streamers around the capybara. Rinse out the screen as needed during this step.
4. Thin down the remaining colors by mixing 50% water to 50%.
5. Color in the design using the "drop and fill" method; load up a liner brush with watered-down color, drop a ball of that color onto the design, and gently push it around to fill in the design. This eliminates the need for three layers and reduces the visibility of brush marks.
6. Paint stripes on the remainder of the rim with your desired colors, and add dots using the back of the paint brush.
