Black:

Mayco SC15 Tuxedo
Gare 2314 Black Lab
CMM 31 Licorice

Green:

Mayco SC98 Slime Time
Gare 2373 Key Lime Pie
CMM 22 Gecko Green

SUPER SIMPLE STEPS: You need Goo in Black

1. Use Black goo to screen the words on the rim of the plate, and the bee in the center.
2. Sketch out the name on the bottom of the rim using a water-based marker. Then, use a detail brush and Black paint to paint on the name.
3. Use the Black goo again to add streamers to the rim, and confetti around the bee. Rinse off the screen when needed during this step.
4. Thin down the remaining colors by mixing 50% water to 50%.
5. Color in the design using the "drop and fill" method; load up a liner brush with watered-down color, drop a ball of that color onto the design, and gently push it around to fill in the design. This eliminates the need for three layers and reduces the visibility of brush marks.
