PYOP STUDIO STUFF SUPPLIES:

Hearts Abound Silkscreen

SUPER SIMPLE STEPS:

1. Screen the design around the vase using Black Goo and a squeegee. The design won't go all the way around the first time; so after screening it on, wash off the screen and dry with a paper towel.
2. After it's been washed and dried, you can see through it to screen in just enough to make the design go all the way around. Fire the vase before painting.
3. Water down all your colors with 50% water to 50% paint. Start by painting the background around the designs with Pink. As you work away from the design to the top of the vase, use more water so the color fades out.
4. Use your desired colors to fill in the designs with 1 coat of your watered down paint.
