SUPER SIMPLE STEPS:

1. Use Black goo to apply the desired designs on each side of your vase. We chose to wrap some of the designs around the corners. You can keep painting, or fire it as coloring book pottery.
2. Water down Yellow paint with 75% water to 25% paint. Lightly dab on coat of paint, working around the designs, to create the background of the piece.
3. Water down the remaining colors with 50% water to 50% paint. To fill in the designs, use a detail brush and apply one heavy coat of your desired colors.
4. Finally, use a fan brush to paint in 3 coats of Purple to the center.
